Year book

2023/2024

Professor Dr. W. Georg Ringe
Director, European Master in Law and Economics (EMLE) Programme

We take pride in our alumni who have gone on to excel in various fields, including academia, international law firms, public organisations, and multinational corporations. Your EMLE degree, recognised for its excellence and supported by the European Commission, has equipped you with the analytical tools and interdisciplinary insights necessary to navigate and influence the complex legal and economic landscapes worldwide.

A Message from the EMLE Director

Dear graduates of the European Master in Law and Economics 2023/24,

As the Director of the EMLE programme, it is my great pleasure to extend heartfelt congratulations to each of you on graduating from our programme and on reaching such a significant milestone.

This journey hasn't been easy. Completing our rigorous interdisciplinary programme, which spans multiple prestigious universities and encompasses a diverse international cohort, is a testament to your dedication, resilience, and intellectual curiosity. Throughout this year, you have engaged deeply with the economic analysis of law, benefiting from the expertise of renowned scholars and the rich cultural experiences offered by our partner institutions across Europe and beyond. Your cohort, representing over 35 nationalities, has exemplified the global perspective that is essential in today's interconnected world. I am confident that the friendships and professional networks you have cultivated here will serve as invaluable assets as you advance in your careers.

As you embark on the next chapter of your professional journey, I encourage you to remain inquisitive, to continue challenging conventional boundaries, and to apply the interdisciplinary approach that has been the hallmark of your EMLE education. Remember that learning is a lifelong endeavour, and the foundation you have built here is but the beginning of a rewarding and impactful career.

Please stay connected with the EMLE community, share your experiences, and contribute to the growing network of professionals dedicated to the advancement of law and economics. Your achievements are our greatest reward, and we look forward to celebrating your future successes.

Warmest regards,
Georg Ringe

Dagmar Ahlgrimm
EMLE Coordination

Hamburg University
Institute of Law & Economics

As you may know, we are active in all three terms and enjoy having EMLE students with us almost all year long! It was a great pleasure to get to know so many open, bright and interesting students from all over the world and learn a bit more about your home countries and hear about your experiences here in Germany during your stay.

HAMBURG TERMS 1, 2 & 3

A quick run through the terms...

1st Term

The first term of the new EMLE year started more or less with a public holiday (Tag der deutschen Einheit, celebrating German reunification) so the Campus Tour took place on the morning of 4th October. Stops on the tour were the libraries on Campus, the IT center and of course the different cafeterias (Mensa)! One important location was also the EMLE room in Von-Melle-Park 5, aka WiWi Bunker, where all EMLE classes would take place. Two days later, we had a Welcome Meeting at the Institute where you could get to know teachers and staff. Soon after, the German classes for beginners started at Tandem Hamburg in the harbour. On 8th November we had the formal EMLE Opening Ceremony in the University Guest House. Here the audience was addressed inter alia by our local EMLE coordinator, Georg Ringe. The unofficial highlight of the speeches, however, was the address of the two EMLE students, Nina Emonde and Jonas Müter, who very charmingly conveyed their view of the programme so far and their expectations and their experiences in Hamburg. Two days later, the first round of exams was upon us all already. Soon after, you were invited to the offices of Associate Partner PwC Hamburg to attend a workshop on Transfer Pricing held by Dr Thomas Bittner. Soon after this, the two remaining exams had to be tackled and then you were free to enjoy your well-deserved break during the Christmas vacation!

2nd Term

The second term started off with a Campus Tour and the first classes on 5th January. On 15th January, we had a Welcome Session at the new offices of the Institute! The highlight of the second term will have been the Midterm Meeting which took place in Rotterdam on 15th/16th February where for once all EMLE students of the academic year 2023/2024 found themselves in one place! In the second half of the second term, you attended a workshop by BDO on "Due Diligence in Corporate Finance Transactions" at their premises on 22nd February and were also invited to the Hamburg offices of the Deutsche Bundesbank for a talk by the president Dr. Arno Baecker on "Current Challenges for the Eurozone" on 29th February. Soon after that the term ended with exams.

3rd Term

The third term started after a generous Easter break. On 22nd April, the first day of classes, we had a joint Welcome Session at the Institute together with the new EDLE doctoral students. On 16th May we had arranged a visit to the International Tribunal for the Law of the Sea which is located in a nice leafy area of Hamburg on the river Elbe. We were given a small tour of the impressive building which was specifically designed for the Tribunal, followed by a presentation of the tribunal and its history by the press officer. On the

Extracurricular Visits to Lüneburg

Both in the first and the second term we arranged group visits to my hometown Lüneburg (for the last 21 years) where I very much enjoyed showing you this charming Hanseatic city and explaining its history over the centuries.

I hope you had as much fun as I did!

Congratulations!

Let me congratulate you all on your graduation – I hope to celebrate this achievement with very many of you at the Graduation on 14th February back in Hamburg!

I wish you all the best for your future – and let's stay in touch!

Warm regards,

Dagmar

Nina Emonde
Hamburg
1st term

To the next generation of EMLE students, I'd simoly say; Embrace this year as a journey of discovery. Dive deep into research, challenge the obvious, and explore how law and economics align with your passions. Use this time to refine your skills, expand your perspective, and define your unique impact on the world. And also, don't forget to have fun and enjoy learning about the diverse cultures in the group.

What is your favorite place in the city?

Undoubtedly, the Hamburger Dom. It made for an exciting escape and stress relief, especially after the exams.

Describe a memory from this year that makes you smile (:

Giving a speech at the opening ceremony. I wanted to challenge myself to deal with my fear of public speaking and my classmates encouraged me to try through such a platform.

If you could be someone from the EMLE group for one day, who would it be and why?

If I could be someone from the EMLE group, I'd be professor Ringe for his poise and ability to translate complex concepts into real-world solutions. His expertise and mentorship inspires my aspirations and have allowed me to have an eye to see law and economics in everyday situations.

What is one thing you learned about yourself during the EMLE program?

When you're nervous about stepping outside your comfort zone, remind yourself; that it feels scary because it's unfamiliar, not because you're incapable.

What is one song that reminds you of your EMLE experience?

Old Town Road 😂 we sang it on the bus to Rotterdam for the Midterm meeting.

ROTTERDAM

AMAZING MEMORIES!

Ilva Putzier/Laial Allaham as interim EMLE coordinators for Rotterdam:

Again, a year has passed and you EMLE students of **2023-2024** have spread over the globe – back to your home countries or into a new home country, pursuing internships and found jobs!

You came with your own experiences and cultural backgrounds, mixed and matched and mixed again during this wonderful year of travelling and studying, left with your own EMLE culture and became part of the 2000+ EMLE-member family!

Thanks for leaving a lasting impression on our EMLE team in Rotterdam as well – we will remember you from shared experiences and fond memories of Pizza-lunches, trying Dutch snacks, an 'okay' welcome dinner and great dancing at the **Midterm Meeting** in Rotterdam! Good luck and stay connected!

Some of our Rotterdam best memories!!!!

We lived in Rotterdam as EMLE students and the experience was incredible. The city was vibrant and multicultural, which made it perfect for learning and growing. The classes were challenging, but we enjoyed exploring the canals and the modern architecture of Rotterdam, every weekend we found a new cafe or a market that surprised us. A big plus, the mixture of cultures was reflected in the food, and we enjoyed tasting dishes from different countries. Rotterdam became our second home with amazing people! .

Write a message or piece of advice for the *next generation*

Enjoy every moment!

What is your favorite place in the city?

The Pavilion is solely for the excellent espresso martinis.

Anna Löwe
2nd term
Rotterdam

What is one song that reminds you of your EMLE experience?

Pump up the Jam, because there was no party or pregame without it

Describe a memory from this year that makes you smile (:

I smile every time I see the bike Manon, Mika, Lorraine, and I got tattooed in Rotterdam as a reminder of our time there. I only biked a total of three times in the Netherlands, so a tram might have been more accurate, but the memories make me very happy every time I see it.

Haifa

1st term

HAIFA *first term*

Haifa holds a special significance for us as EMLE students, even during our brief stay. The city's rich cultural history and stunning landscapes encourage us to explore and immerse ourselves.

The breathtaking views of the Mediterranean Sea spark our dreams and ambitions, long nights and a lovely weather was definitely something that made our stay meaningful .

Beach walks

Say cheese!

Cheers!

Haifa reunion on the MTM!

Each moment spent in this vibrant city contributes to lasting memories, highlighting the friendships we've formed and the experiences we've shared together. The sunsets over the sea leave us filled with gratitude for the time we've had here.

NEXT STOP WARSAW

It was unexpected,
but we continued our first term in Warsaw. As an EMLE student in Warsaw during the winter, our experience was a mix of feelings and new beginnings. We started over again making our friendship stronger.

The city transforms into a picturesque winter wonderland, with snow covering the beautiful architecture and festive lights illuminating the streets. The university received us and let us enjoy the last months before starting our second term.

These experiences enhance our time here and foster connections in our little group. Our journey in Warsaw was a curious blend of learning, moving and cultural exploration!

Grazie
Haifa
1st term

What is one song that reminds you of your EMLE experience?

Taj Mahal – Monobloco

What is one thing you learned about yourself during the EMLE program?

To be less controlling and go with the flow!

Enjoy this year as much as you can. Travel, go out, experience the place you are and enjoy with the other students.

If you could be someone from the EMLE for one day, who would it be and why?

Joris, of course, since he is royalty!!

What is your favorite place in the city?

Actually, it's not about Haifa. Since we had to leave Israel due to the war, my favorite place was the apartment Lu, Sophie and I got in Paphos, Cyprus. Despite the unexpected situation we were going through, we made the best out of it and had a lovely time in Cyprus during Our 1st term.

Describe a memory from this year that makes you smile (:

Before we went to India, Filippo wanted to buy a motorbike. His first month in Mumbai were all about trying to buy a motorbike. In the end, he didnt manage to buy one, but during our trip to Goa we rented some scooters. One day, we drove to a beach on our scooters and after sometime Anmol and I realised that Filippo and Joris were not behind us. So we drove back to find them. We thought that it could be lack of fuel, so we bought a bottle of fuel on our way there and got a funil with the owner of the store to put it in the bike. We have a funny photo of me holding a bottle of fuel and a funil on one side of the road while Anmol, Filippo and Joris are with the scooter. In the end, the guy that rented us the scooters had to come to fix it!

GHENT

SOME CORE *memories*

Ghent reunion at the MTM!

Ghent was an amazing place for us as EMLE students, offering a great blend of academics and vibrant culture. Long bicycle rides, and quite the active night life were part of our term. The city is full of history, stunning architecture, and lively markets. Its city center provides plenty of opportunities for exploration and lovely memories. A lot of activities and of course great beers and fries!

The welcoming community and vibrant student life ensure that you'll make friends and feel at home quickly. Studying in Ghent is a rich, inspiring experience beyond just studying.

2ND TERM

The stunning views of Rotterdam, with its blend of modernity and rich history, offer a picturesque backdrop to our adventures. Whether it's a sunset over the Erasmus Bridge or a break by the Pavillon, these images remind us of the beauty that surrounds us, inspiring us to explore and embrace our home for 3 months.

Then there are the late-night study sessions at Sanders Building, where laughter and camaraderie intertwine with the stress of impending deadlines. The shared coffee cups, the competitive Moot Courts and some memorable parties at Black Sheep will be moments that we will keep forever! The Netherlands definetely offers more than 'bad weather' and give us an amazing mid-term meeting.

Study, travel, party, repeat...

What is your favorite place in the city?

Erasmusbrug

Describe a memory from this year that makes you smile (:

The group's first night out together. After attending the welcoming dinner, the majority of us made the decision to continue the celebration. To get there, we all crossed the Erasmusbrug, and we had a fantastic evening. It seemed like the year would be fantastic, and it was.

If you could be someone from the EMLE group for one day, who would it be and why?

Professor Pierre Garello, who wouldn't?

What is one song that reminds you of your EMLE experience?

We are young by FUN

What is one thing you learned about yourself during the EMLE program?

That adapting to new places and people is easier than it seems, it's a matter of just being open.

BARCELONA

Third term

Receiving the EMLE students at UPF has been a fantastic experience. Barcelona is a special place to be and UPF is a great academic environment. All of us, students, professors and staff, got the best out of EMLE for another year.

CARLOS GÓMEZ
UNIVERSITAT POMPEU FABRA
BARCELONA, SPAIN

Barcelona!

"Barcelona in spring was an absolute dream! From sunny walks along the beach and exploring the Gothic neighborhood to enjoying tapas, paella, and churros, every moment was filled with joy. Visiting landmarks like Park Güell and Sagrada Familia made it even more magical. Being a student here, surrounded by amazing friends and endless inspiration, made this term unforgettable. Cheers to the memories!"

Write a message or piece of advice for the *next generation*

Alex Sirois
Barcelona
3rd term

If you could be someone from the EMLE group for one day, who would it be and why?

Not from Ghent nor Barcelona, in fact often he wasnt to be found anywhere. Uncle Arman. The most kindered, kind, and warm man youll meet. No matter the situation, Arman is all smiles. I'd hope to one day know thay calm.

Just know, already, that you won't be attending class last semester

Describe a memory from this year that makes you smile (:

Maybe not smile, but I have a hunch that we all might remember both the Ghent and Barcelona dinners as being a tad bit quirky if even just bizarre.

What is your favorite place in the city?

The pools, the bloody sunset pools with their cheap wine, endlessly textured views, and outrageously supine vibe.

What is one thing you learned about yourself during the EMLE program?

To stay open to life. The best of relationships can lie in the smallest of interactions.

What is one song that reminds you of your EMLE experience?

Anything by Esteban

All the trips we made during the program, and all of us living in the same building.

What is your favorite place in the city?

South Mumbai

If you could be someone from the EMLE group for one day, who would it be and why?

Anmol, to see what he is doing in all his secret lives

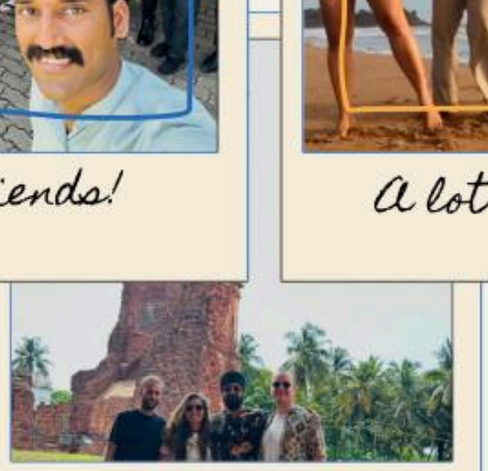
What is one song that reminds you of your EMLE experience?

Ooh La La Tu Hai Meri Fantasi

New friends!

A lot of fun!

Amazing views!



Exploring together!

New food!

As EMLE students in Mumbai, our stay in this vibrant city has been nothing less than amazing! Mumbai is alive with energy, where the rich tapestry of tradition beautifully intertwines with modern life. Every street and neighborhood, has its own unique story to share.

What truly makes this experience special is the incredible warmth and hospitality of the people. They've welcomed me with open arms, and the friendships we've built here are ones we'll treasure for a lifetime.

This last term has been a wonderful adventure too, with supportive teachers and classmates eager to share their culture and experiences. Living in Mumbai has expanded our horizons in ways we never imagined and taught us the importance of resilience and adaptability. We are so grateful for this unforgettable journey, filled with lessons and memories that we will hold forever!

3rd term

Living in Aix-en-Provence during the EMLE program has been an experience we will always carry in our hearts. This beautiful city, with its golden light, charming streets, and lively markets, became much more than just a place to stay—it became our home. What made this time so special were the moments we shared together. Afternoons spent enjoying a glass of pastis, trying our hand at pétanque in the sunny squares, or strolling through the streets of Aix filled our days with laughter and joy.

Chateau night!

Aix taught us not just to admire life, but to truly live it. It showed us the value of friendship, simple pleasures, and creating memories together. These moments, both big and small, made this journey unforgettable. Aix wasn't just a city—it became a part of us.

WARSAW

Third term

WARSAW third term

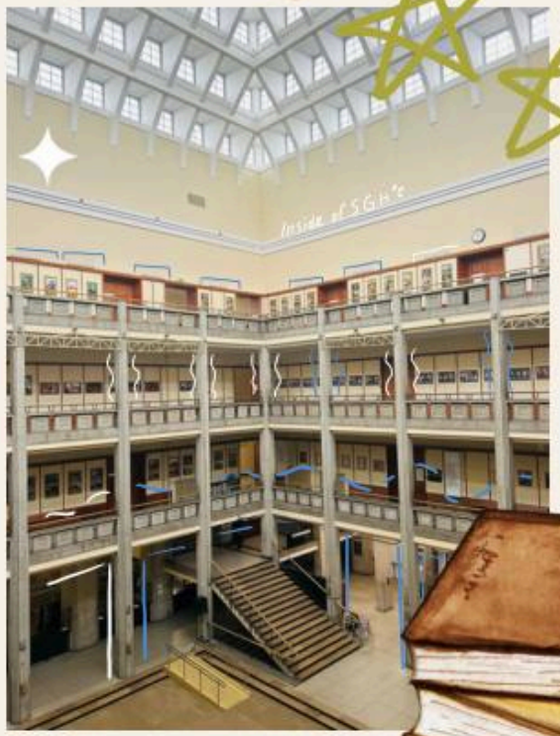
The outer view of Warsaw School of Economics (SGH)

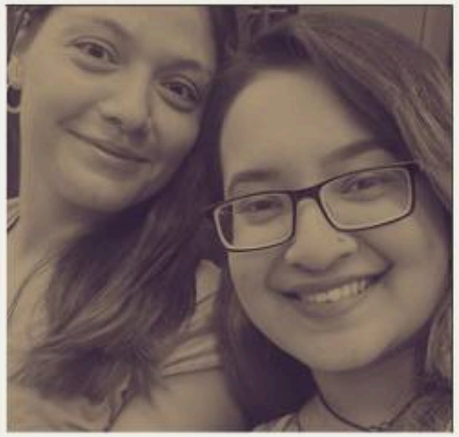
When I started the EMLE program, I knew it would be a challenge, but I never expected how much Warsaw would shape my journey. Studying at the Faculty of Economics (SDG) wasn't just about lectures and assignments—it was about discovering how law and economics come together to solve real-world problems, while navigating a new city and culture. Warsaw itself was a surprise. It's a city of contrasts: rich history and modern energy, peaceful parks and bustling streets. Between classes, I found myself exploring its hidden corners, trying pierogi, and soaking up the unique vibe of a place that's constantly evolving.

But what truly made this experience special were the people. Late-night thesis marathon, deep conversations over coffee, and shared laughs with classmates from all over the world turned what could have been just another academic program into something unforgettable.

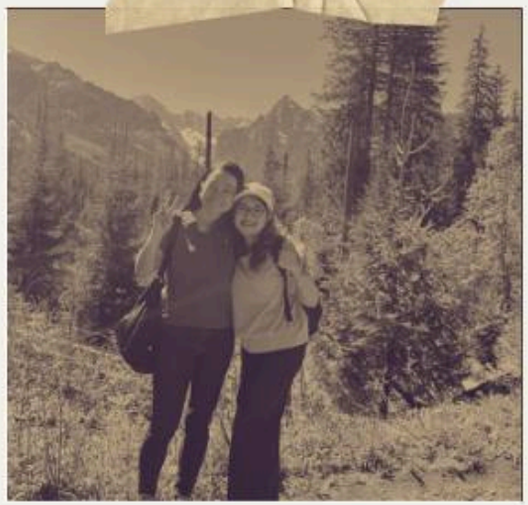
This term in Warsaw has been about more than academics—it's been about growth, connection, and discovering the unexpected. I leave with more than a degree; I leave with memories, friendships, and a piece of Warsaw in my heart

-Anonymous.



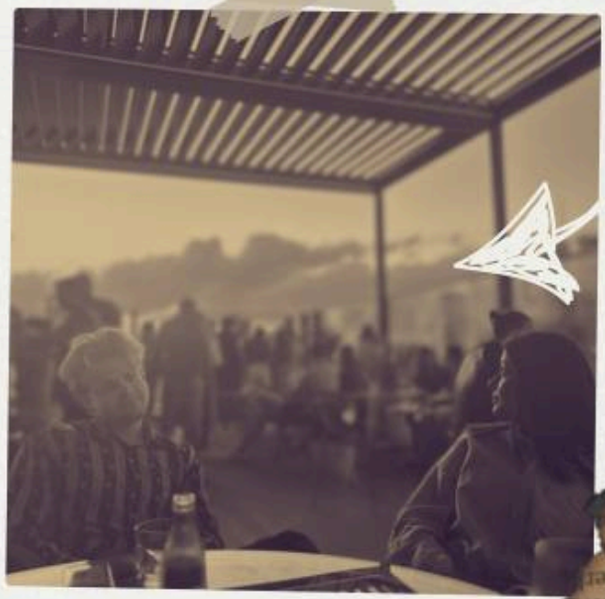


Lovely memories!



Rika and Nowshin!

Enjoying some free time meanwhile working on the thesis!!!



ROME

Third term

Collecting all the memories from EMLE has been such a joy, in one of the most incredible years of my life. I'm deeply grateful for your trust, kindness, and friendship. From the bottom of my heart, I wish you all the best in your personal and professional journeys. I truly hope we can reunite somewhere in the world one day, here in Hamburg – or if it's in Ecuador, even better! ❤

With love
Emilia Aguirre.
